| in jac. | 4 44 - 000 | | /= · · · · |

The results of the Group are also significantly impacted by the change in foreign exchange rates, mainly relating to the UK pound and euro for both reporting periods, as a result of:

(a) the translation of foreign operations to the reporting currency; and

Headline earnings

Adjusted for (net of taxation):

Normalised headline earnings

interest income on settlement of excise

one-off losses and write-offs in associate following sachet ban and excise dispute

(b) the translation of South African monetary assets and liabilities denominated in foreign currency to the reporting currency at year-end.

In the prior year comparative period the income of foreign subsidiaries were converted at an aggregated daily average ZAR/UK pound (GBP) exchange rate of R17,90 compared to R17,69 in the current year. The aggregated daily average ZAR/euro (EUR) exchange rate weakened from R15,38 to R15,79.

Included in "Corporate" are production variances from standard, as production facilities service various regions, currency conversion gains and losses, performance bonuses for the majority of personnel in the Group, and certain centralised functions including ICT, human resources, corporate finance and governance, quality management, innovation and corporate affairs.

9. Financial risk management and financial instruments

Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed consolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Group's annual financial statements as at 30 June 2017. There have been no material changes in the Group's credit, liquidity and market risk or key inputs in measuring fair value since 30 June 2017.

Fair value estimation

Items carried at fair value are classified according to the fair value hierarchy, by valuation method. The different levels have been defined as follows: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

Available-for-sale financial assets are classified as level 1, 2 or 3 and derivative financial assets and liabilities are classified as level 2. There have been no transfers between level 1, 2 or 3 during the period, nor were there any significant changes to the valuation techniques and inputs used to determine fair values.

The fair values of all other financial assets and liabilities approximate their carrying amounts.

10. Business combinations

During the period the Group acquired the following interest which was accounted for under IFRS 3 Business combinations.

(a) Acquisition of Lusan Holdings Proprietary Limited (Lusan)
At the end of October 2017 the Group acquired the remaining 50,0% of the issued share capital of the Lusan joint venture, a Stellenbosch-based wine producer and owner of the Alto and Uitkyk wine farms, for a purchase consideration of R193,0 million. The Group recorded a gain on its previously held equity interest of R75,2 million and no goodwill related to the acquisition was recognised. The revenue of Lusan included in the consolidated income statement since November 2017 was R3,8 million and the company contributed profit of R1,9 million over the same period.

OPERATING PERFORMANCE OF CONTINUING OPERATIONS

Group revenue grew by 9,3% to R13,4 billion on 3,7% higher volumes.

Domestic market revenue increased by a commendable 8,2% and sales volumes rose by 2,9% amid a suppressed consumer environment and sustained competitor activity. The Group's spirits and ready-to-drink (RTD) portfolios delivered strong revenue and volume growth while the wine portfolio showed revenue growth of 4,5% due to premium wine benefiting from trading-up by consumers from mainstream brands. Exceptional brandy volume growth continues at 13,7% alongside growth of 21,3% from gin.

African markets, outside South Africa, delivered revenue growth of 18,5% on sales volumes, which were up by 6,6%, largely driven by the inclusion of KWA Holdings E.A. Limited (KHEAL) in Kenya, which was acquired in April 2017. A few countries delivered mixed results as the moderate uplift from higher commodity prices had not fully flowed through to the underlying economies, coupled with changes in our operating models. Focus markets on the continent such as Namibia, Botswana, Kenya, Zambia and Zimbabwe all recorded strong growth. Overall performance was negatively impacted by challenging trading conditions in Mozambique, Nigeria and a one-off negative impact from the Group's Tanzania Distilleries Limited (TDL) associate as indicated below. The region contributed 55,6% to foreign revenue.

Volumes in international markets beyond Africa grew by 6,7%. Revenue increased by 9,4% as the increased local investment in the UK was impacted by the effects of a stronger rand and a less favourable sales mix. Travel Retail grew sales by 43,2%. The spirits portfolio delivered strong volume growth and cider and RTDs achieved double-digit volume and revenue growth. Brands from the wine portfolio grew market share in seventeen international markets, delivering higher overall volumes of 4,9% compared to the prior period. The Taiwanese whisky market-share increased by 0,5% against an overall volume decline in the market.

The Group continues to focus on further efficiency and cost improvements across the business as it refines its business model and brand portfolio. Foreign currency translation losses amounted to R66,3 million (2016: R89,4 million). Operating costs, which include the costs of newly acquired KHEAL and investment into the Group's shared service centre, rose by 9,8%.

The Group acquired the remaining 50% shareholding in the joint venture Lusan Holdings Proprietary Limited (Lusan), and a gain of R75,2 million on the Group's previously held equity interest is reflected as part of "other gains and losses" in the income statement.

Normalised operating profit, which excludes the impact of the impairments and the profit on sale of investments, increased by 6,5%, while normalised operating profit, excluding pro forma foreign currency translation movements, increased by 4,4%. Normalised EBITDA, excluding pro forma foreign currency translation movements, increased by 7,0%.

Net finance costs in the previous year include the reversal of a R41,9 million provision for interest payable after reaching a settlement with the South African Revenue Service following an extended excise duty dispute. Net finance costs, excluding the reversal, increased from R143,5 million to R167,7 million.

Distell's share of equity-accounted earnings decreased by 77,1%. The R41,2 million contribution of the newly acquired 26% investment in Best Global Brands Limited (BGB) was more than offset by one-off losses and impairments of R85,9 million following a sachet ban and excise duty dispute which impacted the performance of TDL, in which Distell has a 35% interest.

The effective tax rate was 27,7% (2016: 28,5%) since the gain on the previously held equity interest in Lusan referred to earlier is not taxable.

Headline earnings, including discontinued operations, decreased by 5,1% to R1,1 billion and headline earnings per share decreased by 5,1% to 509,2 cents. Excluding the pro forma currency conversion movements, the reversal of the interest and the TDL losses referred to above, headline earnings increased by 3,2%.

INVESTMENT AND FUNDING

Total assets increased by 8,6% to R22,3 billion.

Investment in net working capital, excluding Bisquit Dubouche et Cie (Bisquit) referred to below, grew by 6,0% to R6,3 billion. Inventory increased by 1,7% to R6,8 billion. Of this, bulk spirits in maturation, which are planned for in accordance with the Group's longer-term demand projections, grew by 4,9% to R2,9 billion. Investment in bottled stock and packaging material decreased by 6,8%. Trade and other receivables increased by 10,0%, in line with revenue growth.

Capital expenditure for the period amounted to R543,4 million (2016: R432,9 million). Of this, R158,7 million was spent on the replacement of assets. A further R384,7 million was directed to the expansion of capacity, mainly in relation to the Group's manufacturing facilities for cider and spirits.

In July 2017, the Group acquired 26% of the ordinary shares of BGB for USD54,6 million. The Group has also entered into an agreement to acquire the remaining 74% of the ordinary shares, which will become effective no earlier than the end of 2019 once certain operating hurdles are achieved and conditions precedent to closing are fulfilled or waived.

Net cash generated from operating activities increased by 15,4% to R1,8 billion. The Group remains in a strong financial position, which is demonstrated by a debt to debt-plus-equity ratio of 24,5% (2016: 22,4%) and a debt-to-equity ratio of 32,5% (2016: 28,8%) at the end of the reporting period.

DISCONTINUED OPERATIONS AND EVENTS SUBSEQUENT TO STATEMENT OF FINANCIAL POSITION DATE

- (a) Disposal of interest in Bisquit
 - On 31 January 2018 the Group sold its equity interest in Bisquit for a cash consideration of EUR51,9 million. As the decision to dispose of Bisquit was taken before 31 December 2017, the financial results, assets and liabilities of Bisquit have been excluded from the continuing operations of the Group and are disclosed separately in the condensed financial statements as "discontinued operations". The disposal of Bisquit will result in an improvement of Distell's financial position and ratios.
- (b) Restructuring of the shareholding structure of Distell Group Limited

 As approved at a Distell scheme meeting on 27 October 2017, the shareholding structure of Distell will be simplified through various schemes of arrangement.

 Currently Distell has a multi-tiered ownership structure, in which Remgro Limited (Remgro) and Capevin Holdings Limited (Capevin) own a material interest via Remgro-Capevin Investments Proprietary Limited (RCI). Remgro and Capevin each hold 50% in RCI, and RCI has a 52,8% direct interest in Distell.

A new entity, Distell Group Holdings Limited (DGHL), will effectively acquire RCI's and all other shareholders' direct and indirect interests in Distell in exchange for shares directly in DGHL. DGHL will be listed on the JSE Limited (JSE) and Distell will be delisted. The finalisation of the restructuring is expected to occur in April 2018 once all regulatory approvals have been acquired.

PROSPECTS

Growth across advanced economies and most emerging markets points to a more favourable global economic outlook.

There are still risks facing the domestic economy in the short term. The recent strengthening of the rand, higher grape prices and water shortages will have a negative impact on the business. The Group looks to defend and grow its market share through an optimised brand portfolio and innovation. It will look to continue and lead in the recovery of the brandy category and drive its wine strategy across the price continuum. While competition has increased in the local cider market, Distell will increase investment in renovation of its Hunter's brand, which remains the world's second largest cider brand by volume.

Whilst the drought in the Western Cape poses a real risk to the supply of grapes and wine in the medium term, the company has secured sufficient supply for the current cycle and invested a total of R22,0 million to waste water treatment and reuse programmes to mitigate against further supply risk. The current 29,2% reduction in water usage has been achieved by accelerating the water management programme through demand reduction management and new water-saving initiatives. Certain water-intensive production activities have also been relocated to areas with sufficient water supply.

The Group has largely integrated its new African route-to-market acquisitions as it seeks to build an effective pan-African platform in select markets on the continent. Internationally, the Group looks to sustain the gains made in Europe and build the wine business in key markets.

The Group is making good progress in its two- to three-year programme to create a more agile and efficient business by restructuring its brand portfolio, asset base and operating models. Distell has a portfolio of strong, diverse and appealing brands and the capacity to trade across a spectrum of markets and is well positioned to capture trading opportunities in both domestic and foreign markets.

DIRECTORATE

Mr MJ Bowman was appointed as independent non-executive director with effect from 27 October 2017.

CASH DIVIDEND DECLARATION

The directors have resolved to declare a gross cash dividend, number 59, of 165,0 cents (2016: 165,0 cents) per share for the interim period ended 31 December 2017. The dividend has been declared from income reserves. The dividend withholding tax, levied at 20%, will amount to 33,0 cents per ordinary share. As a result, ordinary shareholders who are liable to pay dividends tax will receive a net dividend amount of 132,0 cents per share. Shareholders exempt from paying dividends tax will receive 165,0 cents per share. The issued ordinary share capital as at 22 February 2018 is 222 382 356 (2017: 222 382 356) ordinary shares. The company's income tax reference number is 9115001712.

The dividend will be payable to shareholders on record on Friday, 23 March 2018, and will be paid on Monday, 26 March 2018. The last day to trade cum dividend will be on Monday, 19 March 2018, and shares commence trading ex dividend from Tuesday, 20 March 2018. Share certificates may not be dematerialised or rematerialised between Tuesday, 20 March 2018, and Friday, 23 March 2018, both days inclusive.

BASIS OF PREPARATION, ACCOUNTING POLICY AND COMPARATIVE FIGURES

The condensed consolidated interim financial statements are prepared in accordance with the JSE Limited Listings Requirements for preliminary reports and the requirements of the Companies Act applicable to summary financial statements. The JSE Listings Requirements require preliminary reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and also, as a minimum, to contain the information required by IAS 34 Interim Financial Reporting. The directors are responsible for the preparation of the condensed consolidated interim financial statements, prepared under the supervision of the Group finance director, LC Verwey CA(SA).

The accounting policies applied in the preparation of the condensed consolidated interim financial statements are in terms of IFRS and are consistent with the accounting policies applied in the preparation of the previous consolidated annual financial statements.

The Group has adopted all new and amended accounting pronouncements issued by the International Accounting Standards Board (IASB) that are effective for financial years commencing from 1 July 2017. None of the new or amended accounting pronouncements that are effective for the financial year commencing 1 July 2017 have a material impact on the consolidated results of the Group.

AMARULA

Amarula represents the best of Africa in every bottle and, just like our marula fruit, we were handpicked for multiple awards in 2017. Celebrated for our firm commitment to quality, with 18 international spirit awards over the last three decades, Amarula was recently awarded a global Liqueur Masters award. Amarula is recognised for the work done in conserving and protecting Africa's elephants through initiatives like The Amarula Trust.

SAVANNA

Savanna continues to enjoy global growth and, in the last six months, recorded double-digit volume and revenue growth. Savanna is now available in more than 60 countries and is well known for its unique, unapologetic brand tone. In recent years, the brand has had two successful additions, being Savanna Loco, a tequila-flavoured variant; and Savanna Blackbeard, a rum-flavoured variant.

VICEROY

Viceroy is matured to a higher taste than other brandies, making it one of the world's great tastes in brandy. The brand has been a part of South African culture for many decades. The launch of Viceroy Makoya spurred the growth of the Viceroy brand into record volumes and contributed immensely to the resurgence of the brandy category.

ALTO

Alto wines are crafted by celebrated winemaker, Bertho van der Westhuizen, whose devotion to his craft is ever present. With many gold medals in open competitions with the best wines in the world, the Alto wine collection continues to charm even the most discerning connoisseurs. The 2015 vintage had a particularly impressive year, collecting numerous awards that include double gold at Veritas for Rouge and Shiraz, and gold for Rouge at Michelangelo.

BERNINI

Bernini is a naturally sweet, sparkling, grape, ready-to-drink beverage, inspired by the Italian attitude to life - they live life "frizzante" or "with sparkle". The brand recorded double-digit growth in volume during the period under review, cementing its credentials as being perfect for the spontaneous, the ones who celebrate life, and the ones who are ready to sparkle at a moment's notice.

HUNTER'S

Celebrating 30 years this year, Hunter's continues to maintain its dominant position on the African continent as the number-one cider in Africa and second in

| global rankings. In keeping with its leadership of this ever-growing cider brand. | position, Hunter's partnered with one of the bigges | st international acts, Black Coffee, to celebrate the success | |
